Designers

Project Managers

Recruiting
Interviewing
Onboarding
Managing

Resulting in increased
productivity of your
business

Proof of concept

- Demonstrates idea's **feasibility**
- Done within a couple of **weeks**
- Requires **small team and fixed budget**
- Best for **testing a new idea**

Concept

Identify the idea or product you want to create

Discovery

Bilateral communication with the dedicated team:

- Desired features
- User flow
- Preferable design
- Required integrations

Deliverables

Clear project description with fixed timeline and calculated budget

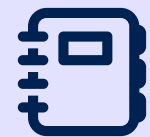

- Full Tech Spec (full feature set, product description)
- UI/UX design (thoughtful design, linked to the Tech Spec)
- Investigation of complicated cases/integrations

Managed delivery

1 Proof of Concept

Describe us your idea

Our team designs the project with the full description, defined timeline and required budget.

2 Dedicate resources

Engenious allocates the required team

We work on development, testing, releases

3 Receive the final product

Tangible results every sprint

On time and within the budget

Our customers

[Check out cases](#)

[Clutch](#)

Sergei L.
Sr. Software QA Lead Engineer, AnchorFree

"They ask how they can improve and offer their help in any way we need it."

Alex Tuaev
QA Manager, Fuel Cycle

"It was complex and we made changes and improvements because of them."

Kateryna Vynogradna
Engineering Manager, Grammarly

"The fact that we finished the project on time speaks a lot of their proactivity."

Gene Khizver
Director of Operations, AwardLogic

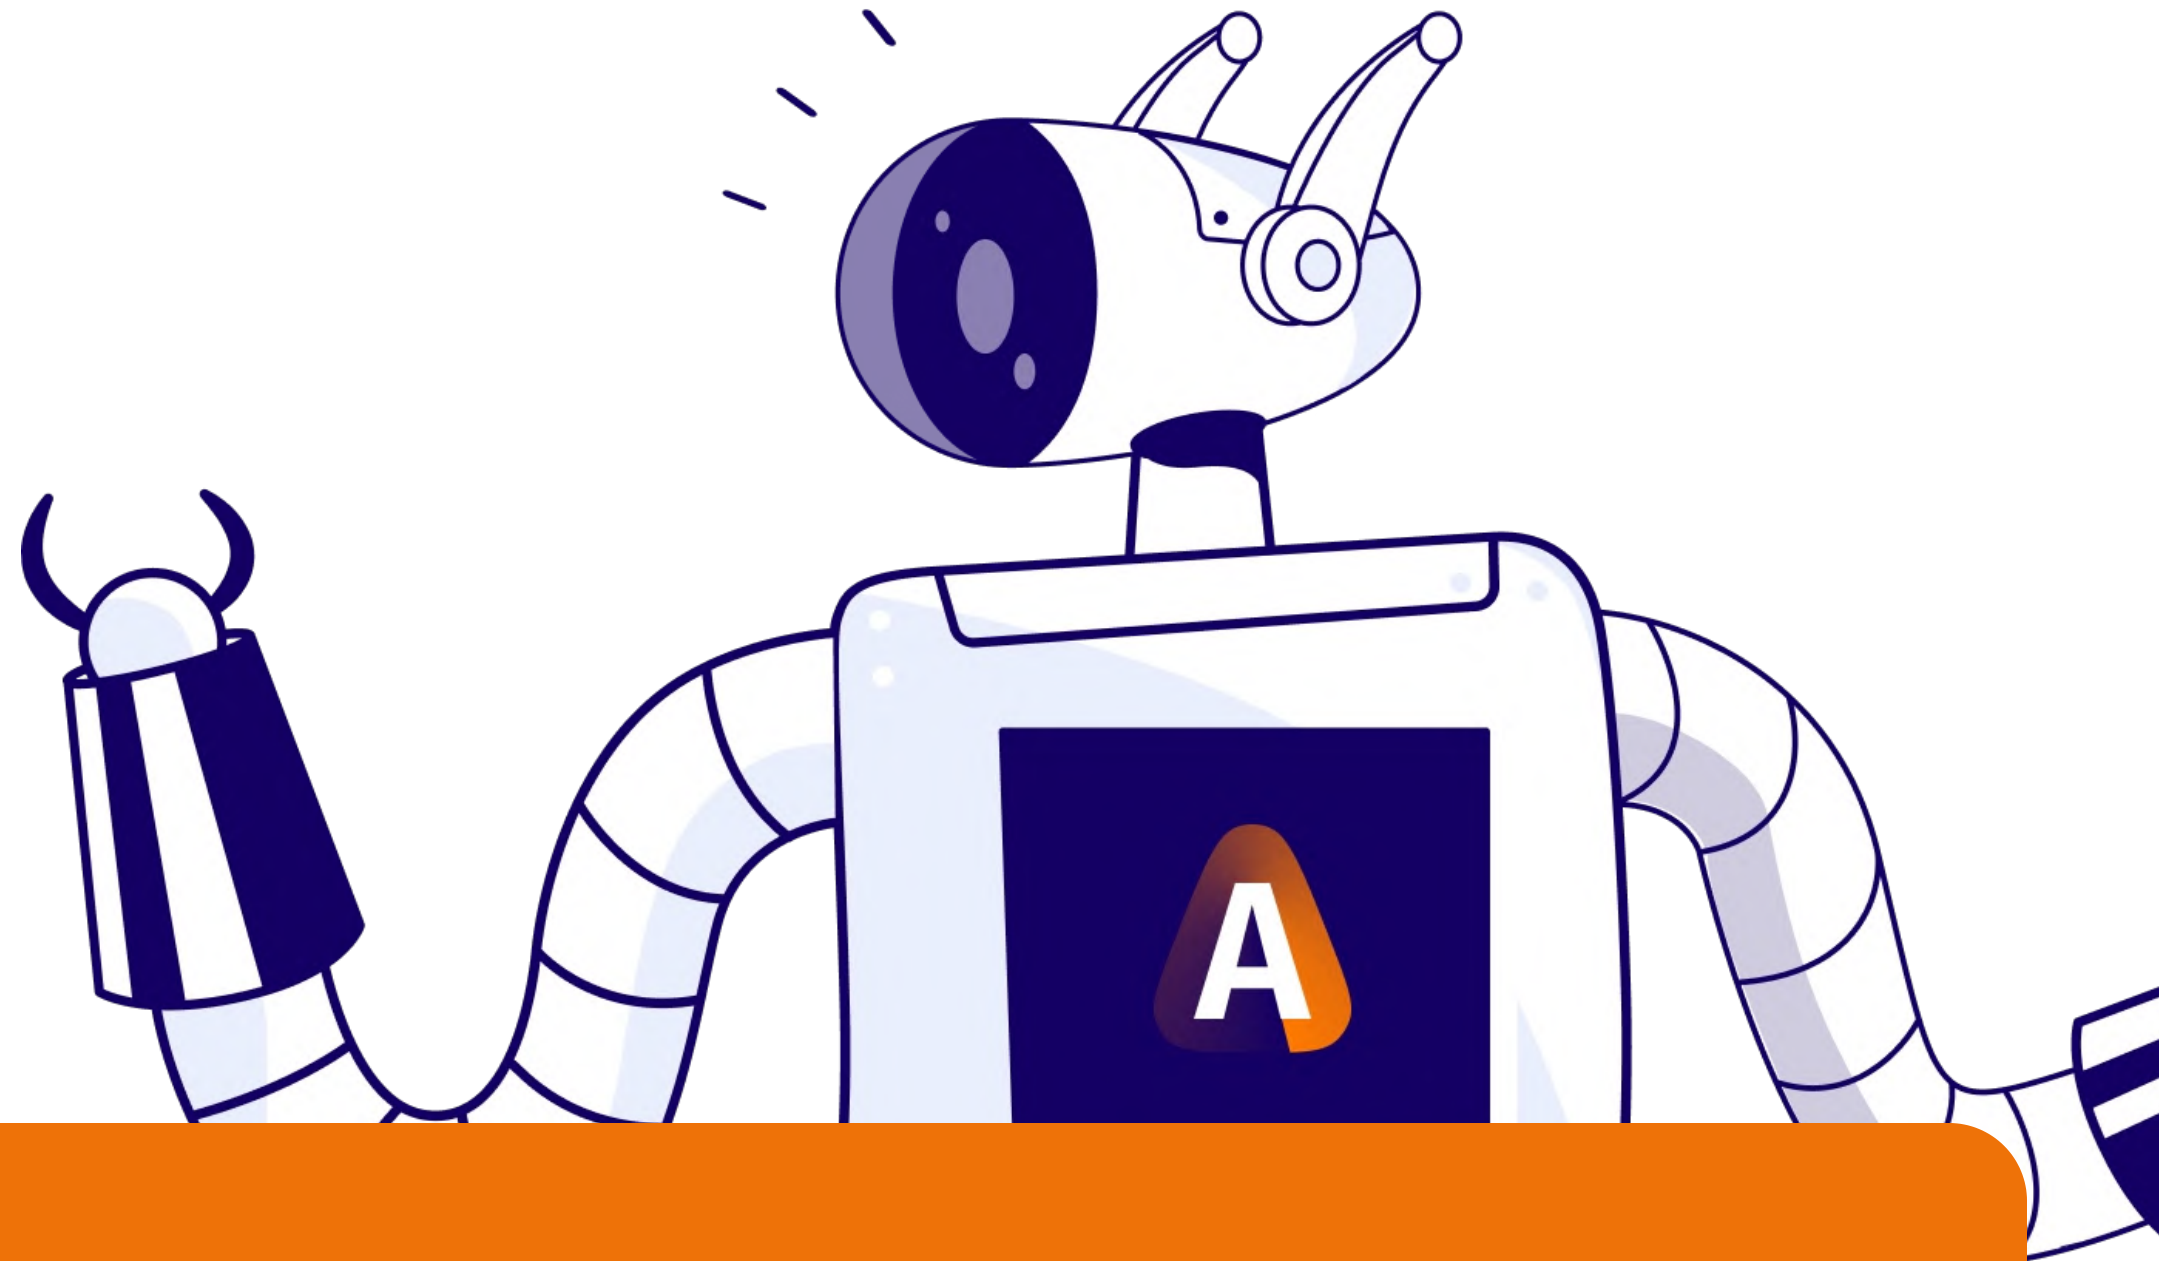

"The team has strong management and skilled developers."
